

Asset & Liability Searches

The digital economy is radically changing our society, and increasingly we all manage our lives and our finances online. In a recent survey 88% of practitioners said they believe it is getting more difficult to identify all the accounts in an estate, creating a growing area of risk.

EstateSearch are now the largest provider of Asset & Liability Searches in the UK and have been pioneering new data and technology to help private practitioners identify assets and liabilities since 2018.

Our award winning Financial Profile Service gives Executors, Beneficiaries, Deputies and Attorneys peace of mind through comprehensive, efficient and demonstrable due diligence that mitigates risk and cost of missed assets or liabilities.

Our search includes;

Identity Trace

Confirming personal current details and searching previous names/addresses

Liability Search

Electronic check of Experian credit data delivered within 24 hours

Asset Search

Searching for live, online, lost and dormant accounts across banks, building societies, share registrars, insurance and pension providers

Fraud Prevention

Vulnerability Registration to prevent identify theft, fraud and financial abuse

Premium Search

Anti-money laundering, Company Directorships, Previous Deputy/Attorneys & Experian 'UAR'
